*Allowable Subject Matter*

1. The following is an examiner's statement of reasons for allowance: upon close review of the claims, the prior art, and applicant's remarks it appears that the allowance of claims 1-16 are appropriate.

The prior art of Galt, used in the outstanding last Office Action, appears to provide instructions for using information from successful call attempts to modify the call sequences in order to favor call set up to the location that is identified as having previously answered calls during a specific time period (Galt, col. 4, lines 55-62; col. 11, line 56 - col. 12, line 6) rather than allow 'a closest neighbor time comparison' of a call history to determine a location of a user when an incoming call is made at a particular time. Therefore, Galt does not meet the requirements of the claimed invention.

Further, it would be contrary to the teaching in Galt to modify the instructions to: compare call records in the call history that is closest in time to the incoming call, determine the closest record by comparing distance 'd1' and distance 'd2', and then route the call to the location corresponding to the closest record, since Galt strives to identify all calls within a specific time period, out of those calls identify successful completion of calls, and then identify a main destination where an incoming call is to be routed (Galt, col. 11, line 56 - col. 12, line 6).

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892 Form.
